COMPONENT IDENTIFICATION

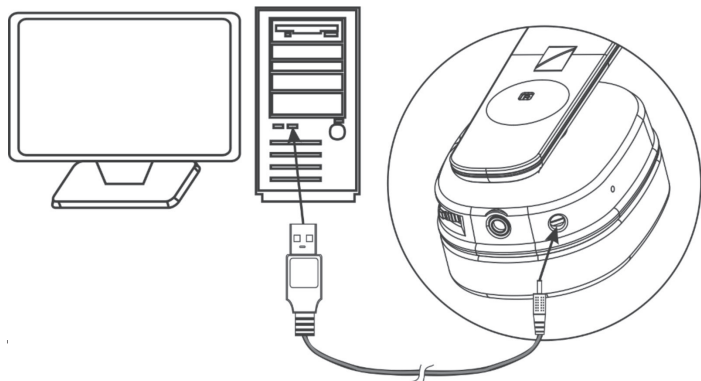

1. Power LED Indicator
2. Power / Pair / Talk
3. Volume+, Volume -
4. 3.5mm Audio In Jack
5. 2.5mm Charge in Jack
6. Microphone

PAIRING

1. Press the Power button, the LEDs indicator light will be on. Keep pressing the power button until the LED flashes in blue.
 2. Enable your Bluetooth device such as cell phones, tablets or other BT media, and make sure it is in discover mode.
 3. Choose "8003763 HeadRush" in the list shown in the BT device, enter "0000" if password is required.
 4. When Bluetooth connection is made, the LED will flash slowly.
 5. Listen to your music or make/take your telephone call on the headphone
 6. The transmission is approx. 10 meters. When the paired receiver is out of range from the Bluetooth device, it will disconnect. The transmission will be resumed by pressing the power button on the receiver within the operating range.
- Note: You may need to refer to your cell phone user guide for additional support on pairing your Bluetooth device.

CHARGING

1. Make sure the headphone is fully charged before initial use.
2. Connect headphone with your PC by the supplied 2.5mm to USB cable for charging.
3. A power adapter with a USB jack at 5V 500mA specifications can also be used.
4. The charging LED will illuminate when headphones are charging. Charging is finished when LED turns Green.

TELEPHONE CALLS

1. If there is an incoming call when streaming music, the music will be muted and ring tone will be heard.
2. Take your call by pressing the Power/Pair/Talk button. Press once again when ending the call. Music will come out again automatically.
3. To make a call, simply dial on your cell phone, and talk in the headphone.

*Check the instruction manual for your cell phones, the process may be different from the above.

LINE-IN

1. Connect the headphone with your audio device directly by the supplied 3.5mm cable
2. The Bluetooth wireless music will be heard after the line-in connection is made
